

PRINT MANAGER

Save time and paper with superior print control.

Printing emails and attachments from Outlook is simple if you don't mind wasting a lot of paper. With environmental awareness mounting, businesses are increasingly seeking ways to reduce paper consumption.

Emails with multiple send and replies can be very long and contain disclaimers for each response. inMailX Print Manager can help reduce your paper wastage by enabling truncate email printing and selective attachment printing in one simple step.

Print Manager can help you:

- ✓ Send & Print or Close & Print in one click
- ✓ Selectively manage email message and attachment printing
- ✓ Print tracked changes in Word attachments
- ✓ Print all worksheets in Excel attachments
- ✓ Print an optional cover page showing print summary
- ✓ Save paper by printing only the most recent email conversation threads

When used in conjunction with inMailX Email Manager, users can specify how emails are sent, filed and printed; all with one click!

inMailX Print Manager is the perfect tool to assist your business in making the transition to a greener office with minimal cost and fuss.
